STUDENT GOVERNMENT MINUTES
February 14, 1995

I. ROLL CALL: Ted Christ, Pauline Kerbici, Brian Daoust and Pat Flynn were absent. Tony Chiuchiolo was excused. Sarah Anderson and Joanne Avery sent an alternate.

II. APPROVAL OF MINUTES OF FEBRUARY 7, 1995: The Minutes were accepted with one correction in the Roll Call.

III. PRESIDENT'S REPORT: *Steve Pratt*

A. Steve Pratt moved that SGA accept George Ramirez as the Multi-cultural Representative to Senate. The Motion was accepted.

B. I just received word from George Sicaras that based on numbers calculated from graduating Seniors, academic withdrawals and academic suspensions, Public Safety is making available to students 38 Commuter, 7 Davis and 4 Main Parking Decals. They will go on sale on March 2 at 9:00 a.m. in Public Safety. This will be done on a first come basis. This information will be put in *The Owl* as well. If you have any further questions, please call Public Safety.

C. Applications for the Washington, D.C. Student Symposium are still available. We have put out publicity all across campus making this available to the entire student body. Applications are due back in the SGA Room by February 22. At that time we will hold interviews for the four students who will be selected to go.

D. We have changed the structure of the Blue Key Nomination Review Committee in the Rules and Regulations Committee. There have been some problems with the selection process in the past. This year we will have a presidential appointment as Chair of this Committee. We feel that this will take the burden off the Executive Secretary who is extremely busy during this time of year. The rest of the Committee will consist of two members from each class. I have appointed Kim Shea as the Chair this year due to her experience serving on the Rules and Regulations Committee. Steve Pratt moved that SGA accept Kim Shea as Chair of the 1994/95 Blue Key Nomination Review Committee. The Motion was accepted. At this time I will open the floor to nominations for the Committee and please remember that this is an important job and Committee members must remain objective:

Class of 1995
Erin Griffith - accepted the nomination
Sean Kelley - accepted the nomination
Mike Young - accepted the nomination
Steve Dailey - accepted the nomination
Ben Vincelette - accepted the nomination
Alex Kennedy - accepted the nomination

Class of 1996
Leah Orsini - accepted the nomination
Kevin Joselyn - accepted the nomination
Mark Trainor - accepted the nomination
Kerri McQueston - accepted the nomination

Class of 1997
Rob Laprel - accepted the nomination
Stephanie Hunter - accepted the nomination

Dawn Paddock - accepted the nomination

Class of 1998

Garrett Ford - accepted the nomination
Jen Legor - accepted the nomination
Jay Dilisio - accepted the nomination

Ballots were distributed to vote for selection of the Committee.

E. The Student Advisory Council Press Conference in the State House went over extremely well. We met and discussed public education with several Senators and Representatives. It is good to see that we still have many powerful supporters at the local and state level. It is too bad that the Governor can not understand our situation. I would like to thank my fellow Senators who went to Boston with me: Jim Joyce, Denise Gould, Dawn Paddock, Rob Laprel and Alex Kennedy. We gained a lot of positive publicity from this Press Conference. I heard about it on the local radio news this morning and there was also an article that appeared in the *Boston Globe*. We have other trips planned to the State House. We won't give up on this.

F. Steve Pratt recognized Professor Brad Art, Chapter President of the Faculty Union, to speak about the status of the Faculty Contract Negotiations:

The following dialogue is an adaptation and statements may be paraphrased.

1. *Dr. Art* - I don't want to talk about the negotiations. I'd rather answer your questions. We appreciate your efforts and your concerns. Respect for Faculty and Staff is translated into respect for you. Lack of respect for us is lack of respect for you. We value your education and the value of your degree is going to be contingent on what happens in the next few months and years. Am I going to slam Applbaum? Yes and No. The "Yes" is that he hasn't done anything effectively that we can see. By that I mean as the Chair of the Council of Presidents, we expect some movement on their part. We haven't seen any. It really doesn't do much to say I'm working on it or talking to people behind the scenes. What we want to see is results. We haven't seen any. We have gone over 590 days without a contract. We are further behind now in negotiations than we were two years ago. We are over seven years now without any cost of living adjustments at all. The Legislature threw a few dollars our way several years ago. There was an article in *The Owl* by Mike Duby. Mike has a good point. He said that we should improve our teaching at the very least. But Mike also endorses that we have a right to cost of living adjustments at least to stay with inflation. We haven't been offered that either. The next bargaining sessions are February 17 and February 24. We will know a lot more about what's happening. February 21 is the next HECC (Higher Education Coordinating Council) Meeting. I encourage you to go. Our group has already made speeches to them that have been ignored. Now we are asking alumni or anyone here

to speak. The floor is limited to three minutes but I think you can say a lot to them. Let me know and I can give you the phone number to call. On April 13, HECC is going to be here. We are hoping to take some action if needed. We will let you know what we intend to do.

2. *Mike Young* - What's the date on the first HECC Meeting?
   Dr. Art - Tuesday, February 21, One Ashburton Place in Boston. The Meeting is at 9:30. I can give you the number to call.
3. *Eric Kester* - What are some of the specific reasons you aren't getting a contract?
   Dr. Art - Dr. Koplik (Chancellor of Higher Education) says that there is no way we are going to get raises. The reason he says that is because he thinks it's a drive for competitiveness. In the market sense, we are competitive. We are much cheaper than the private schools; at least for a comparable education. Then there is also competitiveness on faculty and staff salary. There we are more competitive because we teach a lot more courses for less money. The result is to make this an inferior institution. Our point of view is that most of them are negotiable items, but not now. Not after two years. We can negotiate that in the next contract.
4. *Steve Dailey* - Has there been any talk about work stoppages, strikes or walking out of class?
   Dr. Art - I don't want to be evasive; but yes. There has been talk. There is a lot of frustration on our part. Do we want to do that? No. I don't think any faculty member wants too. That doesn't mean it won't happen. Every meeting I've gone to for the Faculty Union, the first concern is to not jeopardize your degrees or the image of the schools. If there is a work stoppage, it would be very unfortunate and I would hope short lived.
5. *Chris Sault* - Has President Applbaum been giving you the run around? Has he been ignoring you personally or just in front of large groups like HECC?
   Dr. Art - He has been supportive in language. He made a good statement to HECC. My problem with him is that, as Chair of the Council of Presidents, most people are under pressure from both sides. We are telling him to settle this deal. HECC is telling them that they don't care if they settle this. There is no money in this. It's hard to negotiate a contract when you don't know what the financial packet is going to be. What I asked of him is to remove the noneconomic differences on the bargaining table and close the contract. Then we, the Union, can go to the Legislature.
6. *Denise Gould* - I ran into a few signs on campus the other day. I know what the signs mean by being on Senate but a lot of students on campus don't understand what it's about. I was wondering if you could do anything to better educate the students about this. It's hard to get our support if the students don't know what's going on.

Dr. Art - I don't understand some of the signs myself. We aren't doing them . We don't know who is. A lot of what we do and what we need to do needs to be judged by us, whether or not it's in our best interest. You have to separately judge whether or not you want to support them. We would like your support but we would like it to be freely given. Talking to a newspaper, I would like to do that but as far as organizing groups, I'll leave that up to you.

7. *Tom Stewart* - A few years ago Administrators were asked to take a no work, no pay furlough. Did you folks also take part in that or was it just the Administrators?
   Dr. Art - Yes. We were stuck in the same thing.
   Tom Stewart - My point is that the Faculty and Administrators had to take a hit out of our own pay checks because there was such a budget short fall. Now when the tide is turned, when the Faculty needs support because they are working without a contract for so long, I think it's us, the Administrators, Staff and Students who should get behind them. It's directly affecting your education. Our Faculty isn't happy. They haven't had a pay raise is seven years and the cost of living has increased. It would be hard to get on the phone for three minutes with HECC and demand that we get this taken care of. I encourage you to get on the phone and exercise your rights.
8. *Denise Gould* - I had three classes cancelled on Friday. When Professors are cancelling class, that's money you are paying for your education. I think everyone should help out the teachers.
9. *Mike Young* - Why should we help the Faculty if they are going to walk out of our classrooms?
   Dr. Art - So they won't; for one. You have at least as much at stake as we do. I have turned down job offers hoping to tough out the storm because Westfield is kind of a nice place to be. You are stuck with this degree. I fear that even though you are getting a good education, the name of the school won't mean anything. You have a lot at stake that way. The Weld Administration has taken scholarship money and given it to students going to private universities rather then giving it to you. You can get more for your money if the money was given to you. The fees are a lot lower. You are being robbed there too. Part of their idea is that these institutions are less than adequate. We reject that. That is a bad assumption. You are bright people who are learning something here.

The President's Report was accepted.

IV. <u>VICE PRESIDENT'S REPORT - STUDENT LIFE</u>: *Kim Shea*

A. <u>Student Life Committee</u>: *Kim Shea*

1. The Student Life Committee finished the Surveys and sent the results to Dr. Conlogue and Vice President Mazza. The results

showed that the student body polled reflected the same thoughts and opinions as the SGA.

2. We also discussed what the Classes and Halls are doing this semester. Keep your eyes open for all their events.
3. The Poster Policy is being completed. I'll have the revised version for you next week.
4. The Student Life Committee will meet on February 22 at 7:00 p.m. in the SGA Room.

B. Parking Control Board: *Matt Odell*

1. The Parking Control Board attempted to meet on February 9 but did not have quorum. I was the only student present.
2. *The following dialogue is an adaptation and statements may be paraphrased:*
   a. *Steve Pratt* - Could you tell us what the Parking Control Board does?
      Matt Odell - PCB reviews all parking policies for the campus. We can make changes to the Parking Handbook. We do some appeals of there is a major problem. If Public Safety requests that someone lose their parking privileges, they bring that to us. The Parking Control Trust Fund is controlled by us to a certain degree.
   b. *Chris Sault* - You could probably ticket a lot of cars on Sunday nights at the Juniper Lot.
      Matt Odell - I'll see that they try to enforce that more.
   c. *Jen Lejman* - Have you heard anything about the new Shuttle Van?
      Matt Odell - They had to redo the bid and it is going through the process again. It should get it in during the semester.
   d. *Steve Dailey* - Can you get the Shuttle Van to go behind Lammers?
      Kerri McQueston - Last year we had 200 signatures and submitted them but nothing ever happened.
      Matt Odell - If that is something that you would like to pursue, maybe you could bring the signatures to me. As Chair of the Board, I know that I can get it on the agenda for the meeting. We need more students on PCB. Students do hold a majority of the votes on this Board.
3. Parking Control Board will meet on February 22 at 2:30 p.m. in the Private Dining Room.

C. Alcohol Review Board: *Mark Trainor*

1. The February 15 ARB Meeting has been cancelled.

D. *Health Committee*: No Report

E. Food Services Committee: *Kerri McQueston*

1. The Woks are in.
2. A new computer will be installed which will tell you the fat/calorie content in the food your getting.
   The following dialogue is an adaptation and statements may be paraphrased.
   a. *Joanne Avery* - They don't know what's in the food now.

How can they know about the calories? I asked someone the other day whether something was a meat or a vegtable and they couldn't even tell me that.
Kerri McQueston - I imagine that the menu of the day would be programmed into the computer and that would tell you the fat/calorie count.

b. *Jen Legor* - The other day I was at the salad bar and I found a cockroach.
Kerri McQueston - Did you tell the manager?
Jen Legor - No.
Kerri McQueston - Please tell the manager things like this because there is nothing they can do if we don't go to them.

The following dialogue is an adaptation and statements may be paraphrased.

a. *Leah Orsini* - Did the Karate Club accept the proposal and what did Finance say?

XIII. UNFINISHED BUSINESS: None

XIV. NEW BUSINESS:

A. Angie Nydam moved to open New Business. The motion was accepted. *The following dialogue is an adaptation and statements may be paraphrased.*

1. *Angie Nydam* - The Biology Club came to us with a request for a T-Shirt design for a fund raiser. It doesn't seem to be clear who approves fund raising requests. I think that it's a big responsibility to put on just Kim Harper and Emily Wilson. I don't like the idea of only having two people decide what fund raisers there should be. I wish you would clarify that.
   Kim Harper - (Point of Information) The Fund Raising Policy was evaluated and redone last year. Ted Christ was a major part of that. He took the responsibility away from Vice President Garvey and gave this power to SGA which means that all fund raisers have to be approved by me or Steve Pratt as President. This is the first incident that has happened so far. A student from the Biology Club came down with a T-Shirt design which had a beer mug on the front of it. I said "no" because it's against college policy. He was going to come to Senate tonight to ask if he could do it anyway but the ultimate decision is up to Steve and me. The policy is reviewed annually. I have been talking to Andy Johnson, Tom Stewart, Vice President Mazza and Vice President Garvey. We are going to try and organize a Committee to take the responsibility for this, and not have it be just Steve and I. I don't like to do it.
2. *Angie Nydam* - When can the policy be changed.
   Kim Harper - It's due for revisions in May.
3. *Steve Pratt* - When something like this happens, we contact Advisors and the Legislature. We don't just decide to do it ourselves. The is the first year we have had this power. We really worked hard to take it away from Vice President Garvey. We felt students weren't getting represented well and that fund raisers were just decided by Administration.

We are learning how to deal with it.

4. *Angie Nydam* - All I am saying is that you took it out of the hands of one person and put it in the hands of two. You haven't really gained anything here. It's not fair that two people should decide.
   Kim Harper - It's not that we took the power from her so we could do more things or approve more things. We did it so we wouldn't be under the watch of someone else. We could approve our own fund raisers.
5. *Steve Pratt* - I think it's very important that the Administration came to students. That's an asset.
6. *Angie Nydam* - That's not my point. I think the power should be in the hands of the Legislature. I don't think it should be just two people approving fund raising.
   Tom Stewart - (Point of Information) Vice President Mazza has the last say on anything that comes through his office.
   Angie Nydam - I don't condone any T-Shirt that encourages the consumption of alcohol. I just think that the Legislature could make decisions that are just as good at two people and it would look more legitimate.
7. *Kim Harper* - I agree with you. This is the first chance this year that we are getting an opportunity to actually look at this and see what's wrong with it.

Motion to close New Business. The Motion was accepted.
