the quality of the education they are receiving at WSC. This information would also be available and accessible to members of the faculty and administration. This type of evaluation system existed at one time at UMASS and I am in the process of getting information on that system and the logistics involved in putting this together at WSC.

- F. Just to update you, our weekly agenda has changed a bit. 1. Senators are allowed four absences per year.
2. Senators are allowed three alternates per year.
3. Absences can be excused only by the Secretary, Assistant Secretary or the President.
4. Missing a Senate Meeting results in a full absence.

STUDENT GOVERNMENT MINUTES

October 5, 1993

2. We discussed the upcoming agenda for this committee. We will be discussing our Committee bylaws and quorum requirements. Jim Stakenas will be getting a copy of the bylaws for us.

a. *Ted Christ* - Are you allowed to function without quorum?

Dave Kroon - I don't think we are. I did insist that Jim Stakenas get a copy of the bylaws for us.

3. There was also discussion regarding entry into majors if a major is full but the school has open spaces in a class. We will be investigating how this should be handled. As of yet, though, I have no solid information available.

4. We also touched upon internships - paid vs. unpaid:

a. *Dan Szenda* - Some internships offer a bonus rather than a salary.

Dave Kroon - I can mention that too. The discussion was about allowing interns to get paid.

5. The topic of double counting of credits was brought up i.e., Biochemistry - bio or chem?

C. Curriculum Committee: *Dave Kroon*

1. Dr. Barbara Welch was elected as Chair of the Curriculum Committee for the 1993/94 academic year.

2. The Curriculum Committee has been charged with the task of rewriting the Common Core for the College. This has been an ongoing process since the fall of 1992 and has been attempted twice before during the last ten years (1984 and 1987). We reviewed proposed changes and problems with the proposal:

a. The number of required core credits.

b. Diversity - Could be handled without adding credit hours.

c. Health/Fitness - May not be the right thing to do with students who are our age. Many people exercise on their own (*Joe Shinn* pointed out that it would be unfair to students in his program).

d. Upper level classes - This could be handled better but it is a good idea.

e. Foreign language requirement - This department would have difficulty handling the influx of students and feel that most would be apathetic.

f. Community Service - similar reasoning as the health/fitness requirement. Although, there may be room for a compromise.

g. CPR and first aid - not a bad idea but not for credit.

There are many other areas and issues that enter into all of the above such as double majors, transfer issues, etc.

h. *Laura MacWhinnie* - Have they considered that some upper level courses require prerequisites? Have they considered how this would affect a four year graduation?

Ted Christ - I was on this Committee last year and Dr. *Martin* said he would never pass a core that would require more than four years.

Dave Kroon - We discussed double-dipping (classes that

fulfill two requirements).

- i. *Steve Dailey* - Did they address the issue of housing if the core made students attend school for five years
Ted Christ - Dr. Applbaum doesn't want to see students here for five years.
- j. *Dan Szenda* - This is a very serious issue. The priority rank for core revision is 3 out of 10. The deadline is January 1994.

Dave Kroon - We are anticipating it being finished midway through next semester. I find it hard to believe that it could be done next semester. If anyone wants more information of this issue, please feel free to see me.

D. Long Range Planning Committee: *Dave Gallagher*

1. The Long Range Planning Committee approved the proposed renovations to the Ely Campus Center Building in May and the plan is now with the All College Committee.
 - a. *Ted Christ* - This plan does not include space for us to meet. I've met with Curt Robie, Dr. Mazza and Dr. Applbaum and there is no money to support these projects right now. It may never happen or they might happen as soon as next year.
 - b. *Tom Stewart* - Any mention about what will happen with the Owl's Nest? It is the most underutilized space on campus next to the Student Art Gallery.
Dave Gallagher - The Owl's Nest would be renovated. The grill would move downstairs. There would be a section for drinking events. We discussed holding SGA Meetings there as well.
 - c. *Chris Sault* - When will this happen?
Dave Gallagher - This is a five year plan. Whenever they get the money it will happen.
 - d. *Amy Corcoran* - ACC will be sending the proposal back to LRP. We will be asking for a priority list.

E. The Board of Trustees met on October 4 in the Scanlon Living Room. Dr. Applbaum reported that the ADA regulated changes that deal with handicap accessibility of the campus was sent to the Higher Education Coordinating Council. This report estimates the cost of compliance in the academic buildings to be around 3.6 million and 5.7 million in the residence halls bringing the total cost to around 9.3 million. He also reported that Capital Planning will be voting on what action will take place sometime between now and December. It is predicted that funding for these projects will come in matching amounts from the Commonwealth and the campuses. In other words, if the college wants to accept any amount of money for compliance with regulations, deferred maintenance or even new projects on this campus, we will be required to match the funds offered from the state with our own. This means increased student fees.

F. Action Items on the agenda were acted on as follows:

1. Through the Finance Committee, the BOT approved the FY95

October 5, 1993

mission incentives which will be forwarded to HECC for further consideration. It is very unlikely that these prioritized incentive programs will be implemented by HECC.

2. The Personnel Committee approved a change in workload for Claudia Caraher (Staff Assistant in Publications). BOT accepted the resignation of the Men's Cross Country/Track Coach, Gerard Gravel and will be sending a letter for recognition of service to this position as he has served in this capacity for almost twenty years. Three athletic coach appointments were approved:

Richard Doiron/*Men's Cross Country/Track Head Coach*

Patricia Morano/*Co-Practitioner Intramurals*

Paul Serafino/*Men's Soccer Assistant Coach*

3. The Executive Committee presented policies for approval to the BOT:

- a. Grant Writing;
- b. Publication Requirements (dealing with the college seal and logo);
- c. Affirmative Action Plan: Policy Awareness Procedures (this was mandated through governmental regulations); and
- d. Fund Raising. This policy was not acted on and I will be meeting with Vice President Garvey to work towards a mutually acceptable policy that can be implemented in the near future.

All other policies were approved.

- G. Ted and I will be attending the first Student Advisory Council Meeting of the semester at Worcester State College on October 7. I will be reporting back to you on this meeting regarding what has been acted on and what issues we will be addressing. I am hoping that funding for Division of Capital Planning Projects will be a primary agenda item.
- H. Concerns were expressed regarding Alumni Field, i.e., the "W" which was to be painted on the field as well as faults with the track. Dan will be looking into this matter.

The Board of Trustee's Report was accepted.

IX. BOARD OF GOVERNOR'S REPORT: Laura MacWhinnie

- D. The Board of Governor's will meet on October 18 at 4:30 p.m. in Ely 232.

- a. Todd Audyatis - I had a meeting with Jon Conlogue about a week ago. I sent him a memo about this and I will be getting back to you.

AMATEUR RADIO CLUB

I. REPAIR OF AMATEUR TRANSMITTING EQUIPMENT

Description: The Amateur Radio Club is a new campus organization which was approved last year; it currently boasts of having fifteen (15) student members. It is now in the process of setting up a "Ham" radio station which students will be able to operate. Purchasing new equipment to set up an operating club will cost the school at least Three to Four Thousand Dollars (\$3000-4000). However, in order to keep our costs low, the club has elicited donations of equipment from local Amateur Radio Operators. One local resident donated excellent station used equipment (A DRAKE BRAND MODEL TR-4). The problem we face is that the donated equipment requires minor repairs before we can use it to operate.

II. EXPENSES

Shipping:	\$ 50.00
Repairs:	\$350.00
Total	<u>\$400.00</u>

Comment: The club advisors, Dr. Bennett and Dr. Cook have attempted to locate a local repair person; none is available. Dr. Cook contacted the manufacturer and was given the above-mentioned price quote for repairs performed at the factory. The factory address is:

TO : Student Government Association
FROM: Robert Stone
SUBJ: Resignation

It is with great displeasure that I will have to resign my seat on Student Senate. This semester I have found myself overwhelmed with six classes, two jobs, my school committee campaign and of course, my band. I will, however, try to ^{make} my presence known to the Student Government Association, as well as, continue to serve as Vice-President of Commuter Council and as a student representative on the Registration Advisory Committee. It was a pleasure working with you.

Good luck,

Bob Stone
