

FINAL REPORT FOR ENGLISH DEPARTMENT INTERNS

Before you receive a final grade for your internship, you must submit a final report of three- to four- double-spaced, typewritten pages. In your report, address yourself to the following questions.

- 1) How closely did the internship experience correspond to the original provisions of the contract?
- 2) Did your supervisor provide you with learning opportunities and make an effort to teach you?
- 3) Do you feel satisfied with the variety and nature of your experiences?
 - A. Which were the most valuable?
 - B. Which were the least valuable?Explain
- 4) Do you feel that you are now in a better position to find a job that interests you? Why?
- 5) Are you glad that you took this internship? Explain.
- 6) Would you recommend that this company be retained as a participant in the program?
- 7) Are there any other comments that you would like to make about your internship experience? Or any suggestions that you have about how to improve the internship program?

You do not need to devote equal space to the questions; stress what you feel is important and pass over what is not. Admittedly, there is some overlap in the questions. Remember to be honest; you won't be penalized for being critical. One of the purposes of this report is to help place future interns.

Return the report to Dr. Michael Filas (Bates 07) immediately after completing your internship.
