

# BIOLOGY 0281 • Seminar: WETLANDS (Online)

## Instructor: Prof. Carl Grobe

In this topical seminar, we will explore and discuss various aspects of wetlands and wetlands biology through readings, postings, discussions, and other assignments. The course is designed to be conducted entirely online.

This online seminar course satisfies the Biology majors' requirement for a one-credit departmental seminar.

### Required texts:

van der Valk, A.G. 2012. *The Biology of Freshwater Wetlands* (2<sup>nd</sup>). Oxford University Press. ISBN: 9780199608959. [pictured]

Pechenik, J.A. 2016. *A Short Guide to Writing About Biology* (9<sup>th</sup>). Pearson Education, Inc. ISBN: 9780321984258. (*You should already have a copy of this text; any recent edition is acceptable*).
