The campus has been busy over the summer completing exciting new renovation projects, and planning activities and events. Ely renovations were completed in the Library, Main Lounge, and in the Wellness Center which now offers two floors of fitness activities. The Apartment Complex was updated with all new kitchen areas and the addition of a fire suppression sprinkler system and the construction on University Hall continues to be well on schedule for opening in the fall of 2013.

2012-2013 Neighborhood Advisory Board (NAB) starts new year strong... Neighbors air their concerns of “Tobacco-Free Campus”

Twenty plus neighbors, faculty, students and administrators attended the first meeting of the Neighborhood Advisory Board at Westfield State University recently to comment on the newly implemented Tobacco-Free policy. The NAB notated all comments and subsequently sent a letter with overall comments and both short and long-term recommendations to the senior administration. Vice President of Student Affairs Carlton Pickron will serve as the administrative liaison to the committee on this issue. Immediate short-term recommendations include placement of receptacles for litter removal. Long-range options such as designated smoking areas on campus also were presented; implementation however, will require presentation to the WSU Board of Trustees.
