

## GARP 0317: Cookbook 5 December 2012

### Overview

1. Course Evaluations
2. Web Applications

### 2) Web Applications

Web applications are probably the best way to share your Web GIS!

- Several available templates - choose a good one!
- Sleek look!
- Control – users can't change things!

#### Web Application Templates

- 22 different templates!
- Many have configurable options!
- Single or multiple map windows – great for comparisons or different audiences!

***Choose a template where you can add helpful text and map/data credits!***
