

GARP 0317: Cookbook 12 December 2012

Overview

1. Cool Stuff!

1) Cool Stuff!

Learn GIS for Free!

<http://gislounge.com/learn-gis-for-free/>

This is a nice compilation for free online GIS courses and training.

The State of the Polar Bear

<http://pbsg.npolar.no/en/dynamic/app/>

A very understated web mapping map!

OpenTopography

<http://www.opentopography.org/>

Free high-resolution topographic data and analytical tools.

gps4sport

<http://gps4sport.com>

Here you can combine your GPS tracks and videos into Google Earth (somehow...)

Example here: <http://www.gps4sport.com/?a=TrackPlayerServer&i=334>

DIY Remote Sensing

<http://www.westfield.ma.edu/cbraun/resources/gis-resources/>

<http://publiclaboratory.org/home>

Microsoft Excel and ArcGIS Online

<http://blogs.esri.com/esri/arcgis/2012/10/08/excel-tips-for-arcgis-online/>

GIS Cloud

<http://www.giscloud.com/>

- Create, upload, author, publish & share your spatial data in the Cloud.
- Upload and share ArcGIS maps.

Mostly free for non-commercial uses.

The Future of GIS

<http://spatiallyadjusted.com/2012/08/22/episode-4-the-future-of-gis/>

Worth watching!

GIS Evolution and Future Trends

<http://www.innovativegis.com/basis/mapanalysis/Topic27/Topic27.htm>
