

GARP 0102 *Introduction to Physical Geography*

Physical Geography is the study of the physical phenomena and processes that shape the surface of the Earth and their associated variability in time and space.

We explore the interlocking 'geosystems' of the Earth, including the Atmosphere (weather, climate), Lithosphere (landforms), Hydrosphere (surface/ground water), and Biosphere (life).

We will also discuss the interactions between (us) humans and our (natural?) changing surroundings.

Lecture	GARP 0102-001 (CRN# 10713)	Wilson 138	MWF, 09:20 to 10:10
Labs	GARP 0102-01A (CRN# 11313)	Bates 05	M, 10:25 to 12:05
	GARP 0102-01B (CRN# 10977)	Bates 05	W, 10:25 to 12:05
	GARP 0102-01C (CRN# 10978)	Bates 05	F, 10:25 to 12:05

Instructor

Dr. Carsten Braun Office Hours: MWF, 12:15 to 13:15 (or anytime by appointment)
 Wilson 201, 413.572.5595
cbraun@westfield.ma.edu or www.westfield.ma.edu/cbraun

Our goal for this course is simple: We want to get excited about the Earth that surrounds us. Physical Geography is actually quite useful on a daily basis: You will learn what goes on around you and why! So, the next time it rains/snows, or you come across a river, lake, or rock – you will understand why, how, and so what!

Learning Goals

Knowledge of the Earth – *You will be able to:*

- know and apply facts, concepts, and ideas in Physical Geography.
- understand the Earth as an interconnected system of interacting processes and feedbacks.

Skills and Critical Thinking – *You will be able to:*

- construct new knowledge of the Earth using scientific methods.
- to apply geographic thinking and scientific research to other questions.

Perspective – *You will be able to:*

- recognize and describe space, spatial patterns, time, and change as global organizing concepts.
- evaluate interactions and connections between human and environmental systems.

Textbook (required)

McKnight's Physical Geography: A Landscape Appreciation – 11th Edition
Darrel Hess and Dennis Tasa, Pearson Prentice-Hall (ISBN-13: 978-0-321-82043-3)

This is an excellent and well-illustrated textbook. The companion website and included CD provide additional media, illustrations, and useful self-test features. Consider using these resources to expand and test your knowledge and understanding throughout the semester.

Course Logistics

The first section of the semester focuses on Geomorphology (Weeks 1 to 7) and the second section focuses on Climatology (Weeks 8 to 15). We do not cover the entire textbook. Instead, the course is structured around carefully selected themes and associated textbook chapters and lab projects.

- You need a 3-ring binder (to organize the hand-outs) and a notebook for lecture notes. Be organized with your time and materials. Take good notes and don't try to memorize facts without understanding the underlying concepts. I encourage you to learn with a partner or small group to expand your understanding by explaining the material to each other.
- The four tests draw from the material covered in lecture and lab, the handouts, the assignments, and the readings and are a combination of Multiple Choice and Short-Answer questions.
- There are no make-up tests unless you are experiencing a documented emergency – you have to let me know in advance or as soon as possible thereafter and provide appropriate documentation. Make-up tests will be administered during the Fall 2013 exam period. It is not possible to take any test early, so plan accordingly.
- Please review the Academic Honesty Policy at Westfield State University. Cheating, plagiarism, and other forms of academic dishonesty will be severely sanctioned and handled by the appropriate authorities on campus.
- The 7 homework assignments expand your learning process through writing. The assignments typically require you to answer a series of review questions in a few paragraphs each. These are not 'trick' questions – the answers are readily available in the textbook, the library, or on the web. I expect the homework assignments typed, printed, and written in professional English.
- Wednesday (2 October 2013) is our All-Day Field Trip when we explore some of the natural highlights of Western Massachusetts. Please arrange your schedule accordingly! Detailed information will be provided. This field trip requires some hiking on mostly paved trails, although there are a few steeper dirt trail sections.
Consult with me in advance if you have any concerns about this field trip.

Course Website and Resources

Grading Policy

Your course grade is a function of your learning process throughout the entire semester and combines four tests, all lab projects, and all homework assignments. You cannot ‘flunk’ this course based on any one poor grade!

- If you are concerned about your grades or performance in the course – please talk to me.
- Please allow at least one week for grades to be ready.
- No make-up tests, labs, or homework assignments unless you are experiencing a documented emergency.
- No extra-credit assignments.
- Late policy: 10 point deduction for each day late, ‘skipped’ = zero.

Grade Conversion	
A	94-100
A-	90-93
B+	87-89
B	83-86
B-	80-82
C+	77-79
C	73-76
C-	70-72
D+	67-69
D	60-66
F	0-59

Tests	50 percent of final grade
Lab Projects	25 percent of final grade
Homework Assignments	25 percent of final grade

➔ *If you feel that you are not progressing as well as you hoped, please talk to me during my office hours or a mutually convenient time – the sooner the better! Please do not wait until the end of the semester.*

Academic Honesty and Disabilities

The University *Academic Honesty Policy* can be found on page 43 of the current Westfield State University Bulletin. Students are expected to do their own work. Plagiarism and cheating are inexcusable. Any instance of plagiarism or cheating will result in no credit for the assignment or failure of the course. The *University Classroom Student Conduct Policy* can be found on page 45 of the current Westfield State University Bulletin available online at <http://www.westfield.ma.edu/uploads/registrar/bulletin.pdf>.

It is the policy of Westfield State University to provide reasonable accommodations to students with documented disabilities. Students, however, are responsible for registering with the Banacos Academic Center, in addition to making requests known to me in a timely manner. If you require accommodations in this class, please make an appointment with me as soon as possible, so that appropriate arrangements can be made. The procedures for registering your need for reasonable accommodations for disabilities can be discussed with staff at the Banacos Academic Center. Please write to banacos@westfield.ma.edu.

The Fine Print

- Adjustments to the course schedule may be needed to account for unforeseeable situations.
- Please be on-time (= get to class *before* class starts)! Attendance is mandatory!
- Please turn-off and stow your cell phone and other electronic gizmos.
- No texting in class!
- It is your responsibility to keep up with the course material, hand-outs, lecture notes, tests, assignments, grades...I'm not your secretary!
- If you have to miss a class...please inform me in advance to make arrangements.

GARP 0102 *Physical Geography Lecture* (Schedule Fall 2013)

Week	Class	Date	Theme/Topic	Assignment	Reading
Week 1	Class 1	9/4 (We)	Course Overview	HW1 out	syllabus
	Class 2	9/6 (Fr)	Mapping the Earth I	HW1 due	Ch. 1/2
Week 2	Class 3	9/9 (Mo)	Mapping the Earth II		Ch. 1/2
	Class 4	9/11 (We)	Rocks and Minerals I		Ch. 13
	Class 5	9/13 (Fr)	Rocks and Minerals II		Ch. 13
Week 3	Class 6	9/16 (Mo)	Earthquakes / Volcanoes	HW 2 out	Ch. 14
	Class 7	9/18 (We)	Weathering and Erosion I		Ch. 15
	Class 8	9/20 (Fr)	Weathering and Erosion II		Ch. 15
Week 4	Class 9	9/23 (Mo)	Glacial Processes I	HW 2 due	Ch. 19
	Class 10	9/25 (We)	Glacial Processes II		Ch. 19
	Class 11	9/27 (Fr)	Test #1		
Week 5	Class 12	9/30 (Mo)	Glaciers and Climate Change		Ch. 19
	Class 13	10/02 (We)	<i>All-Day Field Trip</i>		Handout
	Class 14	10/04 (Fr)	New England Geography		Handout
Week 6	Class 15	10/07 (Mo)	Groundwater and Soils		Ch. 9/12
	Class 16	10/09 (We)	Fluvial Processes I		Ch. 16
	Class 17	10/11 (Fr)	Fluvial Processes II	HW3 out	Ch. 16
Week 7		10/14 (Mo)	<i>No class (Columbus Day)</i>		
	Class 18	10/15 (Tu)	Coastal Processes I		Ch. 9/20
	Class 19	10/16 (We)	Coastal Processes II	HW 3 due	Ch. 9/20
Class 20	10/18 (Fr)	Test #2			
Week 8	Class 21	10/21 (Mo)	Climate vs. Weather		Handout
	Class 22	10/23 (We)	The Earth in Space I		Ch. 1
	Class 23	10/25 (Fr)	The Earth in Space II		Ch. 1
Week 9	Class 24	10/28 (Mo)	Earth's Atmosphere	HW 4 out	Ch. 3
	Class 25	10/30 (We)	Earth's Radiation Balance I		Ch. 4
	Class 26	11/01 (Fr)	Earth's Radiation Balance II	HW 4 due	Ch. 4
Week 10	Class 27	11/04 (Mo)	The Greenhouse Effects		Handout
	Class 28	11/06 (We)	Pressure and Wind I	HW 5 out	Ch. 5
	Class 29	11/08 (Fr)	Pressure and Wind II		Ch. 5
Week 11		11/11 (Mo)	<i>No class (Veterans Day)</i>		
	Class 30	11/13 (We)	Review and Reflection	HW 5 due	Handout
	Class 31	11/15 (Fr)	Test #3		
Week 12	Class 32	11/18 (Mo)	Atmospheric Circulation I		Ch. 5
	Class 33	11/20 (We)	Atmospheric Circulation II		Ch. 5
	Class 34	11/22 (Fr)	Moisture and Precipitation I	HW 6 out	Ch. 6
Week 13	Class 35	11/25 (Mo)	Moisture and Precipitation I		Ch. 6
	Class 36	11/27 (We)	Mid-Latitude Climate I	HW 6 due	Ch. 7
		11/29 (Fr)	<i>No class (Thanksgiving Break)</i>		Ch. 7
Week 14	Class 37	12/02 (Mo)	Mid-Latitude Climate II		Ch. 7
	Class 38	12/04 (We)	Mid-Latitude Climate III		Ch. 7
	Class 39	12/06 (Fr)	Global Climates		Ch. 8
Week 15	Class 40	12/9 (Mo)	Extreme Weather and Climate	HW 7 out	Ch. 7
	Class 41	12/11 (We)	Climate Change / Global Warming		Handout
	Class 42	12/13 (Fr)	Reflection and Review	HW 7 due	Handout
Week 16	Class 43	12/18 (We)	Test #4 (12:20 to 14:20)		

“Geography is to Space what History is to Time.”

(J.E. Dobson, 2007, ArcNews, 29(1), 1-5)
