Blackboard to Canvas Migration

K16 Solutions

Feature	K16 Migration
Course Menu Links (Original), Folders & Learning Modules	Option 1 (default): Menu links are transferred as modules with associated content within the module. Nested folders and learning modules and their content are migrated but become headers with indented content in each module. Option 1 Example: Blackboard: Menu Link > Folder 1 > Folder 2 > Folder 3 Canvas: Module (Menu Link) > Header (Folder 1) > Header (Folder 2) > Header (Folder 3) Option 2: the first level of folders or learning modules of the menu links can be migrated as modules and any additional folder or learning modules inside will become a header. Option 2 Example: Blackboard: Menu Link > Folder 1 > Folder 2 > Folder 3 Canvas: Module (Folder 1) > Header (Folder 2) > Header (Folder 3)
