

GEOCACHING

Stanley Park

Wednesday, November 13th

1:00pm to 3:00pm

Meet & Grab a GPS in the Geography, Planning & Sustainability office (Wilson 203)

(Dress for the Weather)

Come join your friends for a fun round of geocaching. Geocaching is a real-world, outdoor treasure hunting game using GPS-enabled devices. Participants navigate to a specific set of GPS coordinates and then attempt to find the geocache (container) hidden at that location. The team that finds the most caches receives a T-shirt!
