

Women artists of the Western World.

Women Artists of the Western World.

This course will provide an historical overview of professional women artists in the western world from the renaissance to the present.

The lives and works of these women will be introduced in various mediums, within their evolving place in the art world.

The format of this course will include lectures, films, outside trips and research culminating in papers and projects. Weekly textbook readings are mandatory along with required weekly discussions postings which contribute to class participation points.
