

PLATO Blackboard will not be changing this academic year.

This survey is information gathering, anonymous, and should take 5-6 minutes.

Responses to this survey will inform our exploration of future LMS options for WSU, since the current version of Blackboard will no longer be supported.

For the purposes of this survey, we will use the term **learning management system** (LMS) to refer to online platforms like Plato, that are used to administer, document, track, and deliver or support courses and training programs.

The way you respond to question 4 will determine the additional questions you receive based on your faculty or staff role.
